

Gusset boards for blown film

PEARL low friction profile boards ensure outstanding performance:

- 30% less drag than wood
- lighter in weight
- the profiles cools the film
- no more wrinkles
- custom designed

Pearl designs gusset boards to match your film specifications. By running much cooler and having 30% less drag than wooden gussets, Pearl's gusset boards prevent gusset blocking and will show an immediate improvement in your film quality.

Shown in a deep gusset operation with the tips installed

The gusset boards can be designed to be removable from the gusset boards

This will avoid obstructions that otherwise prevent running full lay flats.

Locating pins and quick connect clamps makes removal and assembly simple.

SM-24 gusset boards Extreme!
Low friction, COF less than 0,06!

- can be supplied in lengths up to 3 meters
- non-stick finish
- prevent scratching and marking of the film
- long service time, hard surface (72C Rockwell)
